**Amendments to Solid Waste Management Ordinance to Prohibit the Use of Plastic Bags for Yard Waste,
Board Agenda Item February 23, 2021**

Dear Supervisors,

Bits of bags in mulch are far from the biggest source of plastic pollution, but every bit helps to cut down on the amount of plastic trash reaching our streams and environment, where it will remain in perpetuity.

Please act to prohibit plastic bags in yard waste.

Sincerely,

Friends of Accotink Creek : : www.accotink.org : :
